PROJECT: BIOG^{INTL} DEBUG

PERSONNEL: Vaughn Young IC

INFORMATION: Omar V. Garrison is, currently writing the LRH biography. He has been researching for over a year now with the assistance of Gerry Armstrong, LRH Archivist. Omar is on a contract with PDK for the production of this book.

There are some situations concerning this biography that need immediate attention which will be handled by this project:

- 1) We have a situation of entheta being spread about L. Ron Hubbard that can be DA'd very effectively by producing an interview with Omar that covers what he is discovering in his research on the man. This would be produced in both a video'd form and a written form for broad useage on media lines. As covered in the "US PR Tactical Plan" this needs to be done very fast to assist in attaining the 1 December "all clear".

National Spokesman, Artie Maren, and Special Project PR will be majorly involved in this project in getting this interview done and utilized.

- 2) We have a situation of Omar needing to be provided with pertinent historical data that will be of use to him in his work, as well as additional material on the current state of things in the legal arena.
- 3) We have a situation of a contract with PDK which is not in the best interest of LRH nor the author, OVG. The contract as written will prohibit broad sales of the book leaving it majorly up to PDK to distribute which is not viable. The contract also, by report, was not entirely agreeable to the author (OVG) and he has requested a review of the contract and the terms thereof. The request for review was several months back, directed to the GO WW PR terminals and to date has only been responded to with a reply that the contract is the contract and should not be changed. So this needs full review and handling.
- 4) There is a situation whereby Omar has not been able to get all the interviews that he needs with family members to get the book done. This is sorting out somewhat but needs to be overseen so that it does not bug.
- 5) There is a situation too whereby we have not worked out PR wise how this book will be exploited from this point forward - ie what advance PR can be gleaned from the book, how are we going to release it as news rather than someone else getting a scoop or possible twist on it. This all

needs to be worked out.

PROJECT PURPOSE: The OVG LRH Biography debugged and being utilized to get the products of: a) security for LRH by increased reput b) successful defenses of LRH c) confidence in LRH d) broadened knowledge of and respect for LRH e) demand for LRH f) demand for LRH products
